## SUMMARY

## SUMMARY

IT Support and Network Support professional with approximately 1.9 years of experience in system troubleshooting, LAN configuration, and technical support. Skilled in Windows and Linux administration, hardware and software support, and basic network configuration including IP addressing, DNS, routers, and switches. Experienced in diagnosing and resolving user issues, installing and maintaining systems, and supporting small office and enterprise environments. RHCSA certified with strong interest in IT infrastructure, system administration, and network support roles.

## EXPERIENCE

**System & Network Support Engineer (Field Support)** Apr 2024 – Jun 2025
*Techfruit Solution (Client: Indian Navy)* India

- Installed, configured, and administered Linux servers (RHEL/CentOS/BOSS/ROCKY).
- Managed users, groups, sudo access, permissions, and ownership.
- Performed LVM creation, extension, and filesystem mounting.
- Configured system services, firewalld, and basic SELinux policies.
- Configured static IP addressing, DNS setup, and performed LAN troubleshooting.
- Assisted in router and switch configuration, VLAN basics, and IP connectivity testing.
- Performed UTP/STP cable crimping, network cabling, and supported modem and access point installations.

## LAB PROJECTS

**Red Hat Linux Administration Labs** 2026
*RHCSA Practical Projects* Kochi, India

- Installed RHEL, configured repositories, updates, and system services.
- Managed users, sudo policies, permissions, and ownership.
- Configured LVM, mounted filesystems, and scheduled jobs using cron.

**Static Routing Configuration** 2026
*Cisco Packet Tracer Lab* CCNA Practice

- Configured two routers connecting separate LAN networks.
- Assigned IP addresses and implemented static routing.
- Verified inter-network connectivity using ping and traceroute.

**VLAN Configuration and Port Assignment** 2026
*Cisco Packet Tracer Lab* CCNA Practice

- Created VLANs on a Cisco switch and assigned ports accordingly.
- Configured basic network segmentation between departments.
- Tested communication within VLAN and verified isolation.

**Access Control List (ACL) Implementation** 2026
*Cisco Packet Tracer Lab* CCNA Practice

- Configured standard and extended ACL to control traffic between subnets.
- Applied ACL on router interfaces and verified restricted access.

**WiFi Extension and Access Point Setup** 2026
*Practical Networking Setup* Home/Office Lab

- Configured wireless access point to extend network coverage.

- Set up SSID, wireless security (WPA2), and IP configuration.
- Troubleshot connectivity and signal issues.

**Modem-Based USB File Sharing Server** 2026
*Home/Office Network Setup* Practical Lab

- Configured modem USB storage for local file sharing.
- Enabled basic HTTP/FTP access within LAN network.
- Tested client access and resolved connectivity issues.

## EDUCATION & CERTIFICATIONS

**Red Hat**
*RHCSA – Red Hat Certified System Administrator* **Certification ID: 260-006-598**

**IPSR Solutions** 2025 – 2026 (Pursuing)
*AWS, RHCSA & RHCE Professional Training* Kochi, India

**Jetking Institute** 2024
*Diploma in Hardware, Networking & Cloud Computing* Kochi, India

**Mahatma Gandhi University** 2022
*Bachelor of Arts – English Literature & Journalism* Kerala, India

## SKILLS

**Operating Systems:** Linux (RHEL/CentOS), Windows 8/10/11, Windows Server 2016
**Linux Administration:** User & Group Management, File Permissions, LVM, systemd, Cron Jobs, SELinux (Basics), firewalld
**Windows Administration:** Active Directory Basics, User & Group Management, Group Policies (Basic), Server Services
**Hardware & Peripherals:** Computer Components, Printers, Scanners, Peripheral Installation & Support
**Networking Concepts:** LAN, TCP/IP, DNS, DHCP, IP Addressing, Network Configuration
**Troubleshooting Tools:** Ping, Nslookup, ARP, Netstat, Ipconfig, Tracert, CMD
**Software & Tools:** Microsoft Office, Microsoft Outlook (Domain Setup), Kaspersky Antivirus, Printer Software
**Technical Support:** Help Desk Support, User Training, Ticketing Systems, Incident Documentation
**System Maintenance:** System Upgrades, Patch Management, Performance Monitoring

## LANGUAGES

**Languages Known:** English, Hindi, Malayalam, Tamil
